

2018-2019 Carpool Program Policies

- All carpool participants must be full time benefits eligible Harvard University employees or a contractor covered by the University Wage and Benefit Parity Policy who works in the Cambridge or Allston campuses. University students and affiliates are not eligible for the carpool benefit. Inquiries about carpooling to the Longwood Medical Area should be directed HMS Commuter Services: 617.432.1111 or parking@hms.harvard.edu.
- The carpool must take place at least 4 days per week, Monday through Friday, and the participants must commute both to and from work together. Permit applicants are assigned one carpool permit.
- Approved carpools are eligible for a 50% discount on an annual permit for a 2-person carpool and a 75% discount on an annual permit for a 3+ person carpool. Carpool payroll deductions will begin 2-8 weeks after enrollment in the program, depending on pay cycle.*
- Carpools must be approved by CommuterChoice and the Campus Service Center. Each carpooler must complete a parking application. Eligibility will be determined on a case-by-case basis. Management reserves the right to deny carpool requests that do not meet the goals of the carpool program.
- If a carpool member drops out of the carpool, leaves the university, or goes on leave of absence, CommuterChoice must be notified immediately. If the remaining person(s) would like to continue to carpool they will have sixty (60) days to recruit another member. If a new member cannot be found, the prorated normal annual parking rate will be reinstated for the remainder of the year. Failure to notify CommuterChoice immediately of any change in carpool status including changes to participants, residential addresses, contact information, or vehicles could result in revocation of carpool status and fines.
- If a carpool disbands, a new parking location may be assigned to the remaining driver(s) on a case-by-case basis at management's discretion.
- Carpoolers must abide by Parking Services rules and regulations, as outlined on the parking permit application. These rules are subject to change. The University reserves the right to relocate or cancel parking privileges without cause at any time and to issue prorated refunds.
- Carpool parking fees are based on current fiscal year rates and the policies established by Parking Services. Parking Services 24-hour enforcement will report any violations of carpool and parking policies to management.
- Audits of the carpool program are performed to ensure compliance. Any falsifying of information, altering carpool permits, other misuse of the carpool program, including and especially failure to alert the CommuterChoice office of changes in status, may result in the revocation of University parking privileges, fines, vehicle towing, ticket, and back charges. Violators may be reported to their human resources department or the University Contract Manager for your employer.

* Contractor carpool permits are paid up front. Any payroll deduction plan must be reviewed with your employer.
