

Everyday Biking Virtual Workshop

Wednesday, June 17 from 12-1 pm

Curious about getting out on two-wheels, but hesitant about how to get going? You're not alone! This everyday biking seminar is geared toward sharing the knowledge and empowerment to take your riding into your own hands, and getting out on the roads, bike lanes, and pathways to get yourself to exercise, run errands, and have fun. Biking is fast, free, and fun (and you'll get fit), and the experts at MassBike have honed their tips to get you over those barriers. This virtual webinar is **FREE** and open to everyone!

Please RSVP [here](#) and you will be emailed a Zoom invitation.
