Re: Parking During Snow Emergencies

Dear Cambridge Resident:

Harvard University Parking Services is pleased to offer Cambridge residents access to our garages during declared snow emergency parking bans. This opportunity allows the City of Cambridge to effectively plow the streets while giving tenants a safe place to park their cars. Hundreds of residents have used this benefit over the years, and we have received a tremendous amount of support from the community.

Please note that due to the COVID19 pandemic, Harvard Parking Services has changed many operating procedures. To ensure everyone's safety, anyone parking in Harvard University facilities is required to wear a mask and to follow social distancing guidelines.

If you are experiencing any of the COVID 19 symptoms as outlined by Massachusetts Health Authority's, please do not bring your vehicle to campus.

To continue to offer this program while accommodating Harvard's daily operations, it is essential that Cambridge residents respect this privilege. **Participants should only come to the garage when a parking ban is announced by the City. This offering is not available during every snowstorm.** Unless pre-approved, residents should arrive no earlier than two hours before the parking ban starts and must leave two hours after the snow ban is lifted. Harvard reserves the right to limit the numbers of vehicles in any garage and may offer an alternate location.

Resident vehicles are subject to be ticketed if their vehicle is not moved two hours after the snow emergency is lifted.

To check if you received a violation or pay a citation is to visit our online web portal at:

<https://harvardparking.t2hosted.com/Account/Portal>

Vehicles that have outstanding citation balances or continue to park in the garage long after the ban is lifted will not be given access during future snowstorms.

If you have any questions or concerns, please feel free to contact our office via email at parking@harvard.edu or by phone at 617.496.7827.

Thank you for your consideration.
